

Create a new market for liquid containers.

SPOUT BAG

"compact capacity" and "large diameter spout".

SPOUT BAG can be used for various applications and occasions as hybrid type BIB with pouches.

Large diameter

The large diameter for the volume allows for use with viscous liquids and granular contents.

Volume and weight reduction

When not in use, it saves space and reduces the amount of waste compared to metal cans and plastic containers of the same capacity.

High gas barrier properties

Suppresses oxidative deterioration of contents and extends shelf life.
